OBJECTIVE

During My experience period, I dived deep into React, the popular JavaScript library for building user interfaces. I've gained hands-on experience in **creating interactive and dynamic** web applications using React's component-based architecture.

I have encountered challenges that have further honed my problem-solving skills and reinforced my passion for creating exceptional user interfaces

Real Time Projects

✓ Admin DashBoard

✓ WEB Applications Responsive

- ✓ Proficiently utilized React's component-based architecture to **create reusable UI components**..
- ✓ Implemented state management techniques, such as **React Hooks ,Redux and Reduxtoolkit**, to handle complex application states.
- ✓ Integrated with RESTful APIs to **fetch & axios** and display dynamic data in real-time and backend frameworks.
- ✓ Utilized **React Router** for building efficient and scalable navigation within **single-page applications**.
- ✓ Built several real-world projects to apply my knowledge and enhance my problem-solving skills.
- ✓ Employed modern web development tools and practices, including **Github and VScode**.
